

**St. Lawrence College**  
**Fab Lab Agreement and Waiver**

St. Lawrence College requires all students and student volunteers working in the Fab Lab (rm 02040) to comply with the safety procedures while using carpentry tools, power tools, or working with paint and/or chemicals.

Each student using this lab must review and sign a copy of these procedures before beginning any lab activities. Failure to sign and comply with this participation agreement and waiver will result in exclusion from future use of the lab space and tools within.

**SAFETY PROCEDURES**

All users of the lab must comply with the following safety procedures:

1. Follow guidelines established by the teaching staff.
2. Close-toed shoes must be worn at all times.
3. Wear safety glasses at all times while operating power tools and while others are using tools in the lab.
4. Do not engage in "horseplay" at any time.
5. If you are unsure how to operate a power tool, do not proceed until after you have received the proper instruction.
6. Report all injuries including minor cuts and abrasions immediately.

I, the student acknowledge I have read this agreement and waiver and agree to follow all procedures listed. I assert that I have sufficient skill and knowledge regarding the safe and effective use of any power tools I will use within the lab. I therefore assume all risk involved in using the Fab Lab and equipment contained within. I acknowledge that St. Lawrence College and its employees will assume no liability, including financial responsibility for injuries or other loss resulting from or occurring during the activity. The undersigned further acknowledges that his/her signature hereto evidences that he/she has read, fully understands, agrees with, and consents to the contents thereof.
